Exam requested Previous related studies? If so, where?

Reason for exams/symptoms Specific protocol needs

This order authorizes Raleigh Radiology to perform lab procedures on patients as deemed medically necessary.

Please send all pertinent clinical history and related prior imaging studies.

Women's Health

- ☐ Uterine Fibroid Embolization (UFE)
- ☐ Chronic Pelvic Venous Insufficiency (Pelvic Congestion Syndrome)
- ☐ Breast seroma aspiration/drainage with possible sclerotherapy

Men's Health

- ☐ Prostate Artery Embolization (PAE)
- ☐ Varicocele Embolization

Venous Disease

- ☐ Varicose venous disease management
- ☐ Spider vein sclerotherapy and varicose vein micro-phlebectomy
- ☐ Deep venous reflux evaluation and management

Gastrointestinal Interventions

- ☐ Hemorrhoidal Artery Embolization (HAE)
- ☐ Gastrostomy/Gastrojejunostomy Tube Exchange
- ☐ Paracentesis

Orthopedic Interventions

- ☐ Genicular artery embolization (GAE) for knee osteoarthritis
- ☐ Joint arthrograms
- ☐ Kyphoplasty
- ☐ Sacroplasty for sacral insufficiency fractures

Interventional Oncology

- ☐ Port placement & evaluation
- ☐ PICC / Hickman Placement
- ☐ Y-90 treatment (Selective Internal Radiation Therapy)
- ☐ Chemoembolization and bland embolization
- ☐ Thermal tumor ablations (RFA, microwave and Cryoablation)
- ☐ Spine tumor ablation
- ☐ Nerve/ ganglion blocks; Celiac, Impar, etc

Genitourinary Interventions

- ☐ Nephrostomy placement and management
- ☐ Ureteral stent placement
- ☐ Renal cyst aspiration with possible sclerotherapy
- ☐ Angiomyolipoma (AML) embolization

Dialysis Access Management

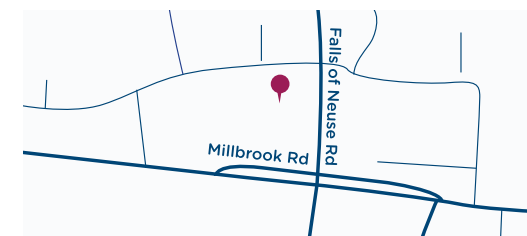

- ☐ Permanent / Tunneled Hemodialysis catheter placement and exchange
- ☐ AV fistula and AV graft maintenance

Miscellaneous Procedures

- ☐ IVC Filter Placement/Removal
- ☐ FNA and core needle biopsy
- ☐ AAA Endoleak repair
- ☐ Pulmonary AVM embolization

Neuro-Interventional Procedures

- ☐ Presurgical embolization of brain tumors
- ☐ Presurgical embolization of large head and neck tumors
- ☐ Lumbar subarachnoid drain placement
- ☐ Epistaxis embolization
- ☐ Diagnostic cerebral angiography
- ☐ Diagnostic spinal angiography
- ☐ Dynamic myelography and advanced work up for intracranial hypotension
- ☐ Epidural steroid injection
- ☐ Epidural Blood Patch
- ☐ Deep head, neck, and spine biopsies
